

"NORITAKE COATED ABRASIVE"

Abrasive Cloth Belt

Pattern Coating Products "ASTRA"

- Good sanding performance by grooved surface.
- Since sanding chip is discharged from groove, it will prevent clogging
- The air cools down from groove, which prevents surface burning

Application

- Remove the scratch of stainless steel coil
- Deburring of steel, stainless steel and titanium (Wet sanding)
- Old painted surface removal in automotive repair work, sheet metal putty sanding
- Non-ferrous metal sanding
- Remove spot weld marks
- Furniture and instruments.
- Sanding leather

Abrasive cloth belt for heavy-duty sanding

- High sanding power type for heavy-duty sanding on metal
- Strong backing and high sanding performance

Application

- Steel, stainless steel, knife, blade, medical instruments
- Removal of weld seams, deburring

Abrasive cloth belt for metal working

- Used in various process work as a long sale product
- From heavy duty sanding to finishing operation, wide range of application

Application

- Steel, stainless steel
- Knife, blade, medical instruments
- Weld seams removal and deburring
- Light metals such as aluminum

Abrasive cloth belt for metal-finishing operation

- Products applied to various surface finishing operations of metal
- Suitable for sanding aluminum, copper or brass material

Application

- Deburring for aluminum material
- Non-ferrous metal for aluminum and brass musical instruments
- Surface treatment for hairlines
- Various metal application for curved surface
- Pre-process sanding, finishing operation

Metal / Wet sanding product

- Special waterproof treatment of cloth backing prevents from curling problem with good performance in wet-sanding operation

Application

- Deburring for pressed metals parts
- Surface treatment of steel or stainless steel
- Surface finishing for other metal working application

Sanding sheet for resin-painting surface

- Pattern coating performs powerful sanding
- From sanding to coating finishing operation, many kinds of products for various applications

Application

- Automotive Repair
- Automotive body and parts
- Paint removal
- Light metal or plastic materials Wood working or furniture

Fabric

- For general purpose with wide range of product variation from rough sanding to finishing operation

Application

- Hairline finishing
- Surface roughness adjustment
- Rust removal
- Deburring on aluminum
- Coating removal

Abrasive Waterproof Paper

- It is high-quality waterproof paper which is made of special treated paper backing and highly-selected grain material

type of waterproof paper

C2A-HX : ASTRA waterproof paper developed by original pattern coating technology

C947H : General waterproof paper with Cwt oil-saturated paper

BA955RD : Flexible waterproof paper with Awt rubber-saturated paper

Application

- Metal working, paint removal
- Stain removal, rust removal
- Wood working, paint sanding
- Automotive repair

Metal / Wet sanding product

- Wide range of belt sanding application, from heavy duty sanding to finishing operation
- Suitable for Electric Belt Sander and Air Belt Sander

Application

- Removal for weld seams
- Deburring
- Surface treatment
- General metal sanding operation
